Development Certification

CAREER OBJECTIVE

I am a dedicated and efficient full stack developer with 5+ years experience in application layers, presentation layers, and databases. I am also Senior front end developer with 8+ years of experience designing and building responsive web design and mobile apps in the financial industry. Proficient with CSS and JS Frameworks, with extensive knowledge of UX and user psychology. Notable achievements include boosting the conversion rate of an existing website by 80% with improved code and design. Certified in both F/E and B/E technologies. Spearheaded successful transition from LAMP stack to MERN which cut latency by 40% and increased effectiveness of database administrators by 20%. Seeking to further improve HTML5 and CSS3 skills as the future full stack developer at Atmospheric Solutions.

WORK EXPERIENCE

Software Developer

QuickBooks

September 2019 - March 2022 / Remote

- Worked on the Payments team to save over 50,000 customers time and improve cash flow through the development of modern, responsive customer experiences
- Led the migration from AWS to GCP for the team to reduce cloud costs by \$260,000 per year
- Worked closely with the product team to re-configure the processing of invoices, saving customers over 125,000 manual hours of work per month
- Mentored 3 junior front end developers on the team on React and documentation best practices within the organization

Full stack Developer

Infinity Consulting Solutions, New York

February 2018 - May 2019 / New York, NY

- Building stable and maintainable codebases using React. Implementing a mobile-first approach to existing websites.
- Collaborating with designers to ensure designs were efficient and technically sound.
- Creating modular, responsive templates using modern CSS techniques and JavaScript libraries.
- Working directly with client stakeholders to develop technical solutions for business cases.
- Assisting with the transition from a waterfall method to the more efficient Agile methodology.
- Leveraging responsive web frameworks to complete deliverables ahead of schedule.

Memberships

Association for Women in
Computing (AWC)

Association of Information
Technology Professionals (AITP)

- Conducting A/B testing to identify bugs and UI improvements.

Front End Developer

AMR

February 2016 - December 2017 / New York, NY

- Contributed to the in-house UI library to create reusable components that saved over 200 hours of development time per month
- Created a web app MVP for a store delivery management platform with 100+ business customers to create, manage, and monitor deliveries using React and Redux
- Added new features to a meditation app with 5,000+ monthly active users to enable the uploading of audio and video content using React and Redux
- Through A/B testing of different components and combinations improved customer conversion rate by 17%, representing \$500,000+ in incremental annual revenue

Front End Developer

TEK systems, New York

May 2014 - January 2016 / New York, NY

- Creating new features, functionality and capabilities on the eCommerce sites using Java, Ajax, SAS, and JSON.
- Recommending solutions for a streamlined, user-friendly interface with the design team.
- Performing bug fixes and code reviews. Technical debt reduced by 32% within first month.
- Designing and implementing HTML email templates and newsletters for marketing campaigns.
- Consulting with 508 Compliance professionals during development of new websites to ensure accessibility.
- Ensuring proper documentation and reports in all stages of product life cycles.
