WORK EXPERIENCE

CTO

Periodic / Remote

📅 January 2021 - November 2022   📍 Bloomington, IN

- Supervised 30 developers that created RW's e-commerce platform that could scale up to 1M daily visitors.
- Directed RW's technical support and operations teams to successfully solve over 400 customer complaints, maximizing uptime and achieving 90% customer satisfaction.
- Designed and developed over 15 full-stack solutions that solved 70% of use cases from embedded devices, and web UI to backend and database.
- Guided and managed a 15-member development team to grow their technical skills via mentoring on operational improvements, coding practices, and technical issue resolutions; improved productivity by 49%.

Senior **Full Stack Developer**

Polyhire/Remote

📅 March 2020 - January 2021   📍 **London, United Kingdom**

- Assisted in requirements analysis, High Level Design, Low Level Design, and complex code development for 20+ applications.
- Completed full redesigns of over 100 existing web pages to improve navigation, enhance visuals and strengthen search engine rankings.
- Increased site traffic 30% by developing user-oriented visuals and features using front-end languages, including HTML, CSS, and JavaScript.
- Own more than 20 projects per year from initial research and conceptual design through testing and implementation phases.
- Developed SaaS app that automates B2B customer onboarding and KYC process
- Used AWS Serverless architecture (AWS Gateway & AWS Lamba) for the backend API development and built the Lambda functions using Python & Node

Full stack Developer

Infinity Consulting Solutions

📅 February 2017 - November 2019   📍 **New York, NY**

- Free Code Camp Full Stack Development Certification
- IWA

Memberships
- Association of Information Technology Professionals (AITP)

- Wrote front-end code, back-end code, integrated 4+ with frameworks and APIs, and utilized multiple CLI tools and configuration GUI's.
- Led architecture, design, and development of 30+ new features.
- Presented and conveyed ideas and designs with 4+ technical teams and 12+ business partners.
- Developed 40+ applications following Agile product development methodologies.
- Oversaw the development and maintenance of new products, technical documentation and workflows.
- Designed, built and automated data flows to save 10+ hours of tedious work per week.

Front End Developer

AMR

📅 February 2016 - January2017   📍 New York, NY

- Contributed to the in-house UI library to create reusable components that saved over 200 hours of development time per month
- Developed user-friendly UI/UX web applications using React/Redux/ReduxSaga/AMD/Material-UI, Angular, Vue/VueX/Vuetify/Element-UI/Vue-Bootstrap, D3.js, three.js, Bootstrap/jQuery
- Created a web app MVP for a store delivery management platform with 100+ business customers to create, manage, and monitor deliveries using React and Redux
- Added new features to a meditation app with 5,000+ monthly active users to enable the uploading of audio and video content using React and Redux
- Through A/B testing of different components and combinations improved customer conversion rate by 17%, representing $500,000+ in incremental annual revenue
